

## HS UASI Interoperability Equipment 2008

4/20/2009 - 6/25/2009

Grant Applicant	Project Title	County	\$ Federal	Project Description
Washington County Emergency Management	UASI Interoperability Equipment 2008	Washington	\$266,000	This grant will provide for the purchase of communications equipment, including repeaters and gateways. These will improve communications interoperability in the UASI as well as regional and statewide emergency response capabilities. This will be done by supporting the priorities identified by the Milwaukee Urban Area Security Initiative in the UASI FY 2008 Spending Plan.
Waukesha County Emergency Management	Waukesha County Communications Interoperability	Waukesha	\$50,000	This grant will allow for the purchase of an ACU-1000 (or equivalent) cross-banding interface for placement in the Waukesha County Mobile Command Post. This equipment will allow users on various networks or systems to be interconnected.
<b>Total Awards</b>			<b>\$316,000</b>
